CUB-XT3QS137

APRIL 2018

## XT 3 SERIES Ride-on Lawn Tractor with Fabricated Deck 137 cm/54"

### SIDE DISCHARGE

The Cub Cadet XT3 QS137 is a versatile and agile lawn tractor, designed for the toughest, most demanding conditions. The mechanical differential lock provides the optimum traction on all terrains, powered by a strong V-Twin Kawasaki engine delivering superior power and high-torque and benefits from great manoeuvrability with a narrow turning radius of just 38cm. Like all Cub Cadet lawn tractors, the XT3 QS137 is built with ultra-tough components featuring a fabricated steel deck, solid and corrosion resistant e-coated frame and an extremely stable v-belt system for smooth, powerful drive force under all conditions. With a 137 cm / 54" cutting width and push button electronic blade engagement, this lawn tractor has the power to mow even taller, dense grass. Other user friendly features include the push button start button and a Bluetooth app to connect a smart phone for updates about inspection and status updates. A grass collection bag is available as an optional accessory (19A30018100) to further enhance its use and capabilities.

NOTE: Specifications may vary according to the types, and are subject to change without notice.
