The Cub Cadet LT1 NS96 is a 96cm/38", twin-bladed side discharge garden tractor powered by a 420cc Cub Cadet engine. The lawn tractor features a transmatic transmission which allows smooth 'change on the move' acceleration from neutral to a selectable top speed. Simply depress the foot pedal for efficient and safe operation in confined areas.

The extremely tight turning circle of 46cm/18" is considerably smaller than most tractors in its class, making it the ideal machine for mowing around obstacles such as trees. Another important feature is the step-through chassis design, allowing very safe, easy mounting and dismounting.

The Cub Cadet LT1 NS96 side discharge garden tractor is ideal for gardeners that have a variety of grass conditions to contend with or require a higher work rate than a collecting garden tractor. Used as a side discharge machine it can handle anything up to small paddocks but is also capable (especially when fitted with the mulch plug) of leaving a very tidy finish on a good lawn.

The Cub Cadet LT1 NS96 is suitable for gardeners with a garden size of one acre and above, but requiring the performance and refinement that these high quality tractors offer as standard.

An optional mulch kit and grass catcher are available for use with this garden tractor and it may need optional high lift blades for wet grass (see accessories on website).

NOTE: Specifications may vary according to the types, and are subject to change without notice.
