# Zero-Turn Lawn Tractor 107 cm/42"

The Cub Cadet XZ 1107 zero-turn ride on lawn mower is a popular design for larger lawns. It is powered by a 547cc Cub Cadet single-cylinder overhead valve engine. Dual hydrostatic transmission provides you with the highest manoeuvrability. This "special order" machine features two adjustable levers or lap bars which provide maximum control from the quickly adjustable seat. The soft grip features on the lap bars make control more confident and comfortable.

Zero-turn means that on full lock this lawn mower leaves no uncut grass. The dual hydrostatic transmission is fully automatic, ensuring one foot pedal does everything. The 107cm/42" floating deck follows the contours of the ground for superior cutting, providing a smoother and more uniform look.

The Cub Cadet XZ 1107 features two anti-scalping deck wheels to minimise damage to the turf, especially during tight turns. Cut grass is discharged through the side and there is an optional twin grass bag available to collect grass via a side chute.

Durability is ensured thanks to the reinforced steel frame and chassis and heavy-duty fabricated front axle. The deep frame allows easy entry on your Cub Cadet and there is plenty of legroom which, combined with the high back seat, provides matchless mowing comfort.
