

SIDE DISCHARGE
**Zero-Turn
Lawn Tractor
127 cm/50"**

**Nett Price:
R65,000
EXCL. VAT**
Please note this price is only valid from Head Office, contact Branches for price with courier cost in your area.

The Cub Cadet XZ2 127 is a popular design for larger lawns up to 3 acres in size. The XZ2 127 is powered by a Kawasaki V-Twin overhead valve engine. The twin-cylinder engine is more efficient and smoother than single-cylinder engines. The engine has a full-pressure lubrication system for longer life. The 127cm/50" mowing deck contains three belt-driven cutting blades to mow 25 percent more lawn per cut than a 40" lawnmower. Combined with a forward speed of 6 mph (3 mph in reverse) and this ride on mower can reduce mowing time dramatically over many other types of mowers. The dedicated dual hydrostatic rear-wheel transmission delivers effortless zero-turn control, synchronized with the steering to reduce turf damage which means that you can expect superior performance and an enviable lawn. There are four adjustable-gauge wheels at the deck corners to minimize scalping the lawn. Cut grass is discharged through the side and there is an optional twin grass bag available to collect grass via a side chute.

- Cutting Height Range:** 38 mm-100 mm
- Cylinders:** V-Twin
- Mowing Area in M2/h:** > 11500
- Displacement:** 726 cc
- Engine:** Kawasaki OHV
- Power:** 12 kW / 2,400 rpm
- Transmission:** Dual Hydrostatic

NOTE: Specifications may vary according to the types, and are subject to change without notice.
