valid from Head Office,
contact Branches for price with
courier cost in your area.

- The new Maruyama Turbo Cut Head is **safer** than the conventional nylon head.
- By cutting faster you **save on labour / fuel**.
- This **attachment reduces cutting time** by only cutting with the line tip.
- The disc eliminates **wear and tear** on the nylon head and fastening nut, which **saves** on replacing broken or worn nylon heads.
- This attachment **cuts easily** against a wall. The disc prevents the operator pushing the line too far t **reducing** excessive line wear.
- The Turbo Cut Head constantly offers a **higher tip speed** due to less drag which prevents the majority of the line from touching any debris or objects on the ground.
- This attachment can in some cases replace a lawnmower.
