THE SCAG LIBERTY Z ZERO-TURN RIDE-ON LAWNMOWER

Now there is a Scag mower that is perfect for the home owner. The Scag Liberty Z is specifically designed for the home owner that wants a high-quality mower but does not need a large, commercial-grade unit. Now, there is no need to take a step down and buy a big box, throw away mower. Now, you can buy something that will last, and perform at a very high level.

The Liberty Z is designed, manufactured and assembled Scag tough, just like every other Scag product. It has a strong, fully fabricated (bent and welded, *not stamped*) cutter deck that is designed to last a long time, and deliver a beautiful cut. There are self-adjusting belts and sealed bearings throughout the mower to minimize maintenance.

Cover some serious grass with ground speeds up to 7mph and a large capacity fuel tank. The tube steel main frame and a heavy-duty steel bumper give the mower incredible strength and durability. An extra large footplate makes getting on and off the Liberty Z a snap, and changing cutting heights can be done right from the seat. A powerful, yet smooth drive system combined with a [Kohler 7000 Series PRO](#) or [Kawasaki FR Series](#) engine delivers plenty of power, even in tall, wet grass. Fast, easy, simple, reliable.

The high-back, contoured, padded seat fits like a glove and is very comfortable. The Liberty Z is so comfortable and fun to drive, you may just find yourself looking for more grass to cut!

Adjustable Armrests

Simple bolt-on armrests are foam padded and adjustable (with tool) for increased comfort.

SPECIFICATIONS:

PRODUCT DETAILS

Up to 7 MPH forward speeds and 5 MPH reverse speeds keep productivity at a maximum.

48" or 52" fully fabricated cutter decks are tough and deliver the beautiful cut that Scag mowers are known for.

18hp (48") or 21hp (52") Kawasaki 600FR/651FR engines are ultra-powerful with excellent torque output.

Kawasaki engines feature a larger oil, air and fuel filter. 4 cycle gas, forced air-cooled, OHV, twin cylinder, vertical shaft engine with fully pressurized oil system.

Heavy-duty hydraulic drive system includes dual Hydro-gear 2800 transaxles for reliable, Zero Turn maneuverability. Cooling fans on the transaxles add to long-life. All metal gears and charge pumps for reliability and increased performance.

5.5 gallon fuel capacity (single tank) lets you cut longer between fill-ups

Heavy-duty, aluminum, sealed ball bearing blade drive spindles provide reliable performance season after season.

Tubular steel main frame delivers unmatched strength and longevity.

Open, easily accessible engine compartment makes maintenance easy and provides ample cooling for the V-twin engine. Engine oil drain and air filter are within easy reach.

Large 20" drive tires and 11" caster tires deliver a nice ride and excellent traction.

Full-featured instrument panel features ignition switch, throttle control, choke control, PTO deck engagement switch and a digital hour meter with built-in maintenance reminders. Hour meter only activates when the engine is running to accurately record engine time.

The **Ogura PTO Clutch Brake** delivers big starting and stopping torque to the cutter deck. Adjustable airgap ensures long component life

Interlocked parking brake system prevents the mower from being driven with the brake on, avoiding premature wear.

Large diameter, padded steering levers make driving the Liberty Z a breeze. Total control, at your fingertips.

Marbain steel cutter blades stay sharp longer for a better looking cut and reduced maintenance.

Easily adjust cutting heights from the seat with the convenient, easy to lift, foot pedal. Wide range of adjustment from 1-1/2" to 4-1/2" in 1/4" increments.

Cupholder keeps beverage within easy reach and is standard equipment.

Deck leveling adjustment brackets allow for easy deck leveling adjustment.

Highly flexible discharge chute will not dent and is easy on the landscape.

No plastic pulleys - Some [other brands] actually use plastic pulleys on their mowers. Not Scag.

All Scag pulleys are made from metal. Plastic is for toys.

High-quality bearings and bearing debris guard on idler pulleys ensure long, reliable service.

Spring loaded idler arms effortlessly keep belts in constant adjustment for maximum life and minimum maintenance.

Excellent stability due to an exceptionally low center-of-gravity and extra wide stance.

The Scag "**Simply the Best**" **warranty** stands behind you and your mower for years of service. 3-years or 500 hours (whichever comes first)

High quality electrical components such as switches, wiring and harness looms are used throughout the Scag mower line for trouble-free service.

There are many, time saving, **accessories for the Liberty Z** like the Tiger Striper lawn striping kit, 2 bag grass catchers, halogen light kits and more.

Actual ground speed may vary. Specifications subject to change without notice or obligation.
